

Flex™

Thermoplastic Single Ply and Multi-Ply
Roofing & Waterproofing Systems

BAK Rion Hand Welder

Features:

- High quality
- Very durable and maintenance friendly
- Longer lasting brushes
- Larger accessory range
- Optimal performance
- Great price
- Easy welding with ergonomic handle
- High speed welding enables high productivity

Quality Replacement Parts and Accessories:

RiOn Parts

Heating Element
#100702

Mica Tube
#100297

Air Filter
#6601028

Carbon Brushes
#6601039

Brush Springs
#6601055

Power Cord
#5528H

RiOn Accessories

20mm Nozzle
#107123

40mm Nozzle
#107132

60mm Nozzle

#5100726M

- Heating element
- Mica tube
- Air filter
- 10' 14 Gauge 120V power cord
- Complete instruction manual
- Carbon brushes
- Brush springs

Flex pioneered the use of Elvaloy® Adhered Roof Systems beginning in 1988 with the introduction of Flex's FB Elvaloy® Fleece Backed Membrane and MF/R Elvaloy® Membrane. The FB & MF/R products were developed with the assistance of the DuPont Company and are one of the only thermoplastic single-ply systems completely compatible with asphalt. The successful track record of the DuPont Elvaloy® based products are well documented and have been in the marketplace for over 35 years.

Flex offers multiple roofing system solutions including Adhered, Mechanically Attached, Non-Penetrating Fastening System using Induction Welding, V2T Vacuum System, Ballasted, Paver, and Green Roof Systems.
